a
Solved error against NS, exact seed
B error (whole volume)
radial surfaces NS
NS^−1.7
default baseline (tcon0 = 1)
exact baseline (tcon0 = 1)
tcon0 = 0
projection floor
b
Dose response
B error (whole volume)
constraint strength tcon0 (0 drawn at 0.003)
default baseline, NS 65
exact baseline, NS 65
default baseline, NS 129
exact baseline, NS 129
c
Linear attribution of the first-order error
B error of x* + delta (whole volume)
radial surfaces NS
default baseline: nonlinear solve
default baseline: linear prediction
default baseline: constraint part
exact baseline: nonlinear solve
exact baseline: linear prediction
exact baseline: constraint part
MHD part (same for both)
