a
Residual of the exact seed
iteration-1 residual fsqr + fsqz, tcon0 = 0
radial surfaces NS
asymmetric Solov'ev, own angle
asymmetric Solov'ev, polar gauge
symmetric data, full basis
integer 3-D tau = 0.5, own angle
integer 3-D tau = 0.5, polar gauge
b
Solved error, exact seed
B error (whole volume)
radial surfaces NS
asymmetric, own angle, tcon0 = 0
asymmetric, polar gauge, tcon0 = 0
symmetric, tcon0 = 0
asymmetric, own angle, default
asymmetric, polar gauge, default
c
Flow Jacobian at the exact seed
eigenvalues with positive real part
default baseline (tcon0 = 1)
exact baseline
integer 3-D
sheared A
asym. Solov'ev (own angle)
asym. Solov'ev (polar)
